

## THUNDER FORCE II

### Level 1: The Planet Nebula

#### Stage 1: The Skies Overhead

There are four bases to be destroyed before being able to proceed. To find some of these bases you have to fly through the white barriers.

#### Stage 2: Inside Enemy Port

Move your ship up and down while you are shooting everything in your path (use the Side Blaster). Kill the yellow creatures by shooting them in the eye while avoiding their shots.

### Level 2: Underground City

#### Stage 3: Skyscrapers

Watch out for buildings. Be sure to find all bases that are to be destroyed.

#### Stage 4: Highway

Move your ship up and down while shooting all objects on the screen. Watch out for the walls that appear. As much as possible stay forward on the screen.

### Level 3: Deeper Inside the Planet

#### Stage 5: A Cave

There are five bases to be destroyed. Keep moving to the upper right portion of the screen and shoot through the small rocks to find these bases.

#### Stage 6: Inside and Abandoned Pipe

Stay at the left of the screen. Use the Side Blasters and Wave Shots while trying to avoid any fights that comes upon you.

**Boss:** Stay completely opposite of the creature and shoot continuously until destroyed.

### Level 4: Ancient Ruins

#### Stage 7: Statues

First Base- Start off by going to the upper left corner and shoot

Second Base- Go towards the right and up

Third Base- Go through the green area three times to find the base

Fourth Base- Go right to the wall then proceed up. Follow to the right and go down into the green area towards the bottom. Go to the right then down where you will see the last base over an open crevice.

Stage 8: Inside Ruins

Use your Side Blasters and Wave Shots while staying back then moving forward quickly to avoid lasers.

First Boss: Stay at the upper left corner and shoot.

Second Boss: Take out the cannons at the end of the arms with your Mega Flash. Make sure to stay at the opposite side of the creature.

Level 5: The Ultra Combat Weapon Fortress Plentos

The Final Confrontation:

The big ship has four wave cannons (two on both sides). Take out the cannons first by using the Hunter. When the ship is ahead of you, get behind the generator and fire until destroyed.

Note: When there are two tunnels, fly down the tunnel with a laser beam. Keep going if it hits you.
